Dear Mr. & Mrs. Kettel:

RE: Permit No. **S2-30339**

Enclosed is your permit No. **S2-30339**, which includes your Development Schedule.

***Completion of Construction form***

According to your permit, you are to finish construction on your water project on or before **June 1, 2008**. When the work is completed, you must complete and submit the enclosed "Construction Notice: Completion of Construction" form. Please return the form to the Water Resources Program at Ecology's Southwest Regional Office.

If we do not receive the completed form by **June 1, 2008**, and do not hear from you otherwise, your permit may be cancelled. We understand that occasionally there are extenuating circumstances that may delay the completion of a project. In this case, you **must** contact us, **in writing**, to request an **extension**.

This is the only notice you will receive from us about submitting the "Completion of Construction" form. It is your responsibility to keep track of the development schedule dates specified in your permit.

Completing construction and submitting the "Completion of Construction" form are essential parts of the process towards securing a water right certificate. After submission of that form, your next deadline is associated with putting the water to full beneficial use.

***Read your permit***

Please read through your entire permit, along with the enclosed water right information sheet, to be sure you fully understand the terms and responsibilities associated with your permit. It is important to remember that this permit is not a *final* water right; it is permission by the state to develop a water right.

If we can provide any further assistance, please contact our office at (360) 407-6300.

Sincerely,

Thomas Loranger  
Water Resources Section Manager  
Southwest Regional Office
